**Subject:** Beauty in Rain

I know it is hard when it is raining, especially when we have to stay home and comply with social distancing.

But there is always “good” that comes from “bad”.

On Sunday, I walked to the Wachusett Reservoir. It was not sunny even though I thought the weather people said there would be sun. I saw the result of the rain we have had over the last few days. I am attaching pictures I took at the Wachusett Dam in Clinton.

Each day we need to look for the “awe” moment, whatever good thing it may be!

I hope you and your families are all still well.

Janet
